- Make sure all the company contacts are updated so we can contact you appropriately.

- Provide special offers if you have those offerings.

STEP 3* Update your advertising content. This includes your logo, products, and collateral.

Upload Advertising Content
 Click here to upload your logo, collateral & product showcase

- Upload your logo. Your logo will be scaled automatically to fit size requirements, it must be a minimum of 100 pixels tall. Make sure you crop around your logo image tightly on all sides before sizing to ensure maximum height and/or width.

Upload Company Logo & Showcase
 Upload company logo, pictures, text & more

- Add your products to your product showcase. When sizing your product images, make sure all files are sized to 2400 pixels wide by 1800 pixels tall. If image is a vertical image, it looks best to center that image in the 2400 x 1800 pixel size so the images appear consistent online.
